

Look who's talking about

Danville Regional

REHABILITATION

*"After my stroke in 2012, I was left unable to walk, talk or transfer. After hard work and determination while working with **Danville Regional Rehabilitation** team, I am now back on my feet and able to communicate again. I participate in daily activities with other residents and am able to call my family on the phone every day! I love being a member of the **Danville Regional** family!"*

- Pat Mercer

"The difference is the care she receives. She is truly a part of a family. The staff goes above and beyond to make sure my mom is happy."

- Rhonda Mercer

Long Term Care is a great option for those who can no longer be cared for at home due to illness, injury, frailty, or other limitations. Under the guidance of an attending physician, Long Term Care is provided by licensed nurses, specially trained health care aides and a full interdisciplinary care team.

Physical, Occupational and Speech Therapies are also available to ensure our long term care residents function at the highest level of independence possible. The setting is home-like, cheerful, soothing and secure.
