

Patti Mullins

CNA/Activity Aide • Greenwood Meadows

Patti Mullins is a fixture within the Memory Care community at Greenwood Meadows. She has worked at Greenwood Meadows for seven and a half years and throughout her time here she has been nothing short of dependable, loving and caring. The residents seem to understand her actions and enjoy being in her presence. Patti is willing to serve our residents in whatever capacity is needed. She has a unique way that she connects with residents to get them engaged in activities on a daily basis. The residents and families adore and appreciate her so much.

Patti is extremely hard working and helps whenever she is needed. She is able to see the “whole picture” of a quality Memory Care unit. She takes time to get to know the residents and their families, sharing their frustrations and smiles, encouraging their talents, lending a hand when a daily task has become overwhelming and being a calming and supportive influence. It is with patience, skill and great care that she attends to all of this.

Patti exemplifies the highest qualities in a caregiver. She is truly a blessing to American Senior Communities, Greenwood Meadows and all of those who are lucky enough to call her a friend.
