

Susie Eberle

QMA • Salem Crossing

Susie Eberle puts her heart into providing care for our residents. Susie has served at Salem Crossing as a CNA since 2009 and a QMA since 2017. She once said, “We all have certain paths in life and mine is to care for the elderly.” Residents have often said that they wish everyone could care like Susie. She demonstrates the CARE values daily through her actions and kind words expressed to our residents, family members and team members.

One team member of Susie’s commented, “I think back over the six years I’ve been here and have had the pleasure to watch Susie grow and develop in her career. I see the dedication and commitment to Salem Crossing that never seems to waiver.” Susie is a person who truly cares about our residents and wants them to receive the very best care they can to make a positive impact on their quality of life. She laughs and smiles and remains positive throughout every situation. The energy rubs off on all those around her and makes Salem Crossing a happy place to come to everyday.

Susie is the youngest of four children. She grew up in a small town in Washington County, Indiana. Her biggest inspiration was her mother. Susie always wanted her to be a Certified Nursing Assistant just like her.
