

Kathy Clouse

Restorative Aide • Stonebrooke Rehabilitation Center

Kathy Clouse has been working in healthcare for 24 years, spending the last 21 years at Stonebrooke Rehabilitation Center. Kathy began her healthcare career as a Hospitality Aide, then became a CNA and now serves at Stonebrooke as a Restorative Aide, working toward her QMA certification.

Kathy enjoys making a difference in the lives of the residents she serves at Stonebrooke. Kathy says, "I enjoy it when I am able to place a smile on a resident's face. I look forward to that every day coming into work." One of Kathy's fondest memories was when she was able to work with a resident who had lost the ability to walk and had set a goal of walking 50 feet. With Kathy's help, the resident was able to not only reach but exceeded this goal by 100 feet and was walking 150 feet by the end of his restorative program. Kathy said she will never forget the joy that this brought to the resident. Stacey Roberts, MDS Coordinator, said, "Kathy is extremely compassionate and dedicated to the residents here at Stonebrooke. She goes above and beyond every day not only for our residents, but families and staff as well. All of the residents absolutely love her and constantly comment on the great job that she does."
