

# Becky Alexander

## Lead Server • Aster Place

Becky Alexander has worked for American Senior Communities for seven years and joined the Aster Place team as the Lead Server in 2015. What she loves most about Aster Place is the connection she has with residents. She says, “They all feel like part of my family and I truly enjoy every day I get to spend with them.” She also has a great group of team members who make every day enjoyable. They work together as an awesome team. Becky says, “We do it all because we love our residents!”

Her favorite memory at Aster Place was the senior prom in March. Becky and the team gave all of the residents a fantastic four course meal. The management team dressed up in prom dresses, the Purdue football team escorted the residents and they all danced the night away. Becky still loves talking about this night, even months afterward. She is thrilled they were able to create memories not only for themselves, but for all of the residents.

Outside of work, Becky enjoys spending time with her husband and their two boys, cooking, traveling and watching her childrens’ sports. With her family, she loves taking small trips to Chicago and no trip is complete without a stop by her favorite pizza restaurant, Lou Malnati’s!
