

The Elkhart Truth

Briefly in Business

ELKHART — For the second year in a row, Elkhart Meadows has received a deficiency-free annual state inspection. This is the best score a senior community can achieve, the company said, and one held by only a small percentage of senior living communities.

Operated by American Senior Communities at 2600 Morehouse Ave. in Elkhart, this community serves seniors who need assistance in daily living as a Memory Care Community. The Indiana State Board of Health inspects such communities to assess compliance with state standards of care, such as adequacy of staffing, quality of care and cleanliness of the community.

Compassion, accountability, relationships and excellence are the core values for American Senior Communities, the company said.

“These words not only form an acronym for ‘care,’ they are guiding principles that lead us every day as we serve a very special generation,” said ASC’s Chief Operating Officer David Stordy. “We are so proud of and grateful to our team at Elkhart Meadows for living out these values in an exceptional way. Without this team’s high level of dedication and commitment, a deficiency-free survey would not be possible.”
