Ryan Babaan

– LPN PRECEPTOR –

Brownsburg Meadows

Ryan Babaan has served at Brownsburg Meadows for just over three years as an LPN. He goes above and beyond each and every day and it does not go unnoticed not only by his team members but the residents as well.

When asked what winning Quest for Excellence meant to Ryan, he said, “This award signifies the reason I became a nurse. When it comes to serving the senior community, I see the residents as my family and treat them how I treat my own family. Being able to make them smile when they’re down, giving them hugs when they miss their loved ones, bringing joy, happiness, and purpose to their lives all while providing the highest quality of care is my mission. What makes this all possible is having a team with the same vision and that’s what we have here at Brownsburg Meadows.”

Ryan checks on the residents even when he is off; he loves them as his own family. This extends to the residents’ families as well. Over the last year he became a beacon of light and hope for all.

As one of Ryan’s teammates said, “Ryan is hardworking, dedicated, and a team player. Ryan is someone who can be counted on in a time of need. When it comes to time of need, Ryan is someone who would give you his shirt off his back. He gives 110% every day he works, and the care he gives goes beyond expectations. He is a great role model for anyone who wants to learn.”

Thank you, Ryan, for bringing such joy to the lives of our most vulnerable residents, our team, and our community. You are the gold standard.
