Danville Regional Rehabilitation Honored with 2022 Silver National Quality Award

Danville, IN- American Senior Communities is proud to announce that Danville Regional Rehabilitation has received the 2022 *Silver- Achievement in Quality Award* bestowed by the American Healthcare Association and National Center for Assisted Living (AHCA/NCAL). This award is part of the AHCA/NCAL's National Quality Award Program, which recognizes long-term and post-acute communities nationwide for demonstrating dedication to improving the lives of their residents through consistent, quality care. There were only two long-term care communities in the state of Indiana to receive this award for 2022, both are American Senior Communities.

Applicants for the Silver Award status must have already attained the *Bronze- Commitment to Quality Award*, which focuses on a community's ability to implement a performance improvement system. At the Silver level, applicants continue to learn and develop effective approaches that improve performance and healthcare outcomes. Communities are assessed on their systems of organization, their effectiveness and their tools for improvement in their approaches. This award lays the foundation for the program's next designation, which is the *Gold- Excellence in Quality Award*.

"Caring people make the difference is not just a slogan, we intentionally seek individuals with a heart for service and a calling to serve seniors," said Donna Kelsey, CEO of American Senior Communities, "It's an honor to be recognized for our commitment to delivering quality care. Going through the process of achieving the Silver award only makes our organization stronger."

All 2022 honorees are recognized at AHCA/NCAL's Annual Convention & Expo. Danville Regional Rehabilitation is located at 255 Meadow Drive in Danville.
