## **Fort Wayne Senior Community Receives Perfect Annual Survey from State Dept. of Health**

**Fort Wayne, IN** – Canterbury Nursing and Rehabilitation Center in Fort Wayne has received a deficiency-free annual state inspection from the Indiana State Department of Health.

A deficiency-free rating is the highest score a senior community can receive and only a small percentage of senior care communities achieve this status. Assessment metrics include cleanliness, staffing to patient ratio, 100% compliance with state and federal regulations, safety, dietary practices, quality of care, and more. Surveys include unannounced visits by inspectors, record checks, and interviews with residents, family members and staff.

Earlier this year, this community received a Silver Quality Award from the American Health Care Association and the National Center for Assisted Living.

American Senior Communities CEO, Steve Van Camp, shared, “The team at Canterbury Nursing consistently earns outstanding rankings and recognition, not only within our industry but, more importantly, from the residents and families they serve. This reflects the standard of excellence we strive for every day, guided by our core values and commitment to exceptional care.”

**About Canterbury Nursing and Rehabilitation:** A member of American Senior Communities and Indiana owned and managed, Canterbury Nursing and Rehabilitation, located at 2827 Northgate Blvd. in Fort Wayne, IN provides short-term rehabilitation, memory care, long-term care, respite care, and outpatient therapy to local seniors.
