Betz Nursing Home Earns 100% Deficiency-Free Survey from Indiana State Department of Health

AUBURN, IN (July 15, 2025) – Betz Nursing Home, part of the American Senior Communities (ASC) family, has achieved a 100% deficiency-free survey from the Indiana Department of Health (IDOH), a notable distinction that highlights exceptional performance and unwavering commitment to quality care.

This accomplishment follows an unannounced, comprehensive annual inspection conducted by the Indiana Department of Health. Surveyors spend several days in the facility thoroughly evaluating a wide range of criteria, including staffing levels, infection control measures, resident safety procedures, resident rights and dignity, cleanliness, medical record accuracy, and overall quality of services provided. The highest priority is placed on the well-being and satisfaction of residents, with inspectors often engaging directly with them and their family members.

Receiving a 100% deficiency-free rating signifies that Betz Nursing Home met or exceeded every state and federal standard, an achievement that reflects operational excellence at every level. In addition to this most recent accomplishment, Betz Nursing Home also maintains a prestigious 5-Star Rating from the Centers for Medicare & Medicaid Services (CMS), further reinforcing its status as a leader in senior care.

“Our team at Betz Nursing Home exemplifies the ASC CARE values: Compassion, Accountability, Relationships, and Excellence,” said Steve Van Camp, CEO of American Senior Communities. “This achievement is a direct result of their tireless dedication and cohesive

teamwork. Earning a deficiency-free survey is no small feat - it requires a high level of dedication, consistency, attention to detail, and a genuine commitment to the people we serve. We are incredibly proud of the Betz team for this well-deserved recognition.”
