## Indiana State Department of Health Awards Local Senior Community a 100% Perfect Survey

**Fort Wayne, IN (August 21, 2025)** – [Coventry Meadows Assisted Living](#), a member of American Senior Communities, has received a deficiency-free annual state inspection from the Indiana State Department of Health for the **fourth consecutive year**. Each year, only a small percentage of senior living communities receive this distinction.

A 100% [deficiency-free rating](#) is the highest rating possible, indicating the facility is meeting or exceeding the standards put in place by the state of Indiana. State inspectors examine staff-to-patient ratio, safety guidelines, adherence to resident rights, cleanliness of the facility, infection control procedures, accuracy of medical records, a check of policies, and a comprehensive review of all services provided to residents. Most importantly, the treatment of residents and their quality of life are examined and includes interviews with residents and their family members.

CEO Steve Van Camp said, “The team at Coventry Meadows Assisted Living are committed to carrying out our core CARE values of Compassion, Accountability, Relationships, and Excellence, in everything they do. These values guide how we serve our residents, become an extension of their families, and support one another as colleagues. A 100% deficiency-free survey is remarkable, and this team has achieved this rating for four consecutive years. We are immensely proud of their accomplishments and congratulate the entire team on this outstanding achievement again this year.”
