Local Senior Community Receives Perfect Annual Survey from Indiana Department of Health

Scottsburg, IN (August 26, 2025) – Lake Pointe Village in Scottsburg, a member of American Senior Communities (ASC), has received a deficiency-free annual state inspection from the Indiana State Department of Health.

A deficiency-free rating is the highest score a senior community can receive, with only a small percentage of senior care communities achieving this rating each year. Communities are assessed on their staff to patient ratio, cleanliness of the facility, 100% compliance with state and federal regulations, record keeping, safety measures, dietary practices, overall quality of care, and more. Surveys are conducted by inspectors through unannounced visits. In addition to their inspection metrics, inspectors conduct interviews with residents, family members and staff.

American Senior Communities CEO, Steve Van Camp, shared, “The team at Lake Pointe Village have shown that through close collaboration and their strong dedication to our core values and standards of excellence, they are deserving of this recognition. We are proud of their accomplishment and congratulate every team member for providing excellent care to our residents and their families, as well as honoring our shared mission.”
