Local Senior Living Community, Elkhart Meadows Receives Perfect Score from Indiana Depart. of Health

ELKHART, IN (September 25, 2025) – Elkhart Meadows, part of the American Senior Communities (ASC) family, is proud to announce it has earned a deficiency-free annual state inspection from the Indiana State Department of Health.

Achieving a deficiency-free rating, the highest possible score for a senior care community, is a rare accomplishment, attained by only a small percentage of facilities each year. The rigorous evaluation reviews key areas such as staffing levels, cleanliness, regulatory compliance, record keeping, safety protocols, dietary services, and overall quality of care. State inspectors conduct these surveys through unannounced visits, which include detailed observations and interviews with residents, family members, and staff.

“This recognition reflects the dedication and teamwork of the Elkhart Meadows staff,” said Steve Van Camp, CEO of American Senior Communities. “Their commitment to our core values and standards of excellence ensures our residents and their families receive the highest quality care every day. We are incredibly proud of their hard work and this outstanding achievement and congratulate the entire team.”
