U.S. News & World Report Recognizes Indiana Senior Care Company in ‘Best Nursing Homes’ for 2026

INDIANA – [U.S. News](#) recently conducted their annual assessment of nursing homes across the United States and recognized five American Senior Communities (ASC) locations in their rankings.

In the USA, approximately 1.2 million individuals (eight percent aged 85+) will reside in a nursing home. Nursing homes, also known as skilled nursing facilities, provide 24-hour care for people who need skilled nursing care and assistance with activities of daily living.

Nursing home stays can range from days to years. To address both possibilities, two areas were rated: short-term rehabilitation and long-term care. To be recognized, a home must be “high performing” in one or both areas.

The evaluation was based on four pillars: performance data, peer recommendations, accreditations, and resident satisfaction. Standards evaluated include nurse staffing, patient outcomes, measures taken to provide a safe environment, and high-quality healthcare. (The ratings methodology report can be found [here](#).)

For the 2026 rankings, 14,752 nursing homes across the USA were evaluated, with only 1200 (8%) meeting the criteria for recognition in one or both areas. There are 509 homes and skilled nursing facilities in Indiana, with only 46 receiving an overall rating of 5 out of 5, with 5 ASC communities achieving this distinction.

The following [American Senior Communities](#) (ASC) locations achieved rankings for 2026:

High Performing in Short-Term Rehabilitation

- [Coventry Meadows](#) – Fort Wayne
- [Danville Regional Rehabilitation](#) - Danville
- [Good Samaritan Home & Rehabilitative Center](#) – Oakland City

High Performing in Long-Term Care

- [Trailpoint Village](#) – South Bend
- [Willowdale Village](#) - Dale

Steve Van Camp, CEO of American Senior Communities, shared his pride in the accomplishment, saying: “Earning a place among the top 8% of communities recognized by U.S. News is truly meaningful. For five of our locations to receive this honor is an extraordinary achievement and a testament to the dedication and excellence of the teams who serve there. Their wholehearted commitment to exceptional care is unmistakable, and it’s incredibly gratifying to see their work recognized on a national level.”
