Hickory Creek at Connersville Receives Perfect Score from Indiana Department of Health

Connersville, IN – Hickory Creek at Connersville, a member of American Senior Communities (ASC), has received a deficiency-free annual state inspection from the Indiana State Department of Health **for the 3rd consecutive year.**

This rating is the highest score a senior community can receive, with only a small percentage of senior communities achieving this rating each year. Communities are assessed on their staff-to-patient ratio, cleanliness, 100% compliance with state and federal regulations, record keeping, adherence to safety measures, good dietary practices, and overall quality of care. Surveys are conducted through unannounced visits by state inspectors and may include interviews with residents, family members, and staff.

American Senior Communities CEO Steve Van Camp shared his praise, saying, “The Hickory Creek team has shown exceptional dedication in earning this honor. Achieving a perfect survey is a significant accomplishment, made possible by strong collaboration and a consistent commitment to our core values and high standards. Their efforts stand out, and we commend every team member for the outstanding care they provide to residents and their families.”
