## **Evansville Senior Community Receives Perfect Annual Survey from State Department of Health**

**Evansville, IN, Dec. 8, 2025** – North Park Nursing Center in Evansville, a member of American Senior Communities (ASC), has received a deficiency-free annual state inspection from the Indiana State Department of Health.

A deficiency-free rating is the highest score a senior community can receive, with only a small percentage achieving this rating each year. Communities are assessed on staff to patient ratio, cleanliness, 100% compliance with state and federal regulations, record keeping, safety measures, dietary practices, overall quality of care, and more. Surveys are conducted by inspectors through unannounced visits. In addition to inspection metrics, they conduct interviews with residents, family members and staff.

American Senior Communities CEO, Steve Van Camp, shared, “A rating of this caliber is no small achievement. It requires unwavering focus, exceptional teamwork and daily commitment to the highest standards of care. The staff at North Park Nursing have demonstrated that through strong collaboration and consistent adherence to our core values and standards of excellence, they earned this recognition. We are incredibly proud of their accomplishment and congratulate every team member for the outstanding care they provide to residents and their families.”
