U.S. News & World Report Names Fort Wayne Area Senior Communities Among Best Senior Living for 2026

Fort Wayne, IN (April 14, 2026) – American Senior Communities (ASC), Indiana’s largest senior living and healthcare provider, has been recognized by U.S. News & World Report for exceptional performance across multiple categories in its 2026 Best Senior Living ratings.

Now in its fifth year, [the U.S. News Best Senior Living ratings](#) evaluated more than 3,000 senior living communities nationwide. Communities are assessed using a comprehensive, [data-driven methodology](#) that incorporates feedback from residents and their families on key factors such as safety, quality of care, staff, management, value, and overall satisfaction with services and amenities. Only communities that meet U.S. News’ rigorous standards earn the designation of Best Senior Living, reflecting consistently high performance based on direct consumer feedback. The top-performing communities in each level of care receive this distinction.

In addition to these honors, ASC communities were also recognized with “Accolades” in several areas of excellence. These distinctions are awarded to communities ranking in the top 25% nationally for Caregiving, Activities & Enrichment, Management & Staff, Food, and “Feels Like Home.”

“Choosing a senior living community is a significant life decision for older adults and their families. U.S. News’ Best Senior Living ratings provide a transparent, data-driven tool to help families identify the highest-quality care available,” said Ben Harder, managing editor and chief of health analysis at U.S. News. “We commend the communities that have earned this distinction, which reflects a deep commitment to resident well-being and exceptional service.”
