Seven American Senior Communities Named Among America's Best Nursing Homes 2027, Takes Top 3 Spots in Indiana

INDIANAPOLIS, Ind. - American Senior Communities (ASC) is proud to announce that seven of its communities have been recognized among [*America's Best Nursing Homes 2027*](#) by Newsweek and global data and research firm Statista.

The annual recognition highlights nursing homes across the United States that demonstrate a strong commitment to quality care, safety and the well-being of their residents. With thousands of nursing homes serving communities nationwide, recognition by Newsweek and Statista provides families with valuable information as they consider care options for themselves or a loved one.

ASC communities earned recognition across two nursing home size categories, with several facilities continuing a strong record of recognition from previous years.

In the 150+ bed category, six ASC communities ranked among the top nursing homes in Indiana, including:

- [Coventry Meadows – Fort Wayne](#): **Ranked No. 1**, improving from No. 3 in 2026.
- [Greenwood Meadows – Greenwood](#): **Ranked No. 2**, marking four consecutive years among the top two.
- [Heritage Park – Fort Wayne](#): **Ranked No. 3**, improving from No. 4 in 2026.
- [East Lake Nursing & Rehabilitation – Elkhart](#): **Ranked No. 6**, improving from No. 11 in 2026.
- [Rosegate – Indianapolis](#): **Ranked No. 8**.

In the 100-149 bed category, the following ASC communities were among only fifteen Indiana nursing homes to make the list this year:

- [Danville Regional Rehabilitation – Danville](#): **Ranked No. 9**.
- [Good Samaritan Home & Rehabilitative Center](#) – Oakland City: **Ranked #11**

The recognition is especially meaningful for ASC because several of the communities have been recognized by *Newsweek* and Statista in previous years, demonstrating a continued commitment to serving residents and families at a high level.

“Recognition like this is never about a building or a number on a list; it’s about people,” said Steve Van Camp, CEO of American Senior Communities. “It is about the nurses, aides, therapists, administrators and countless team members who show up every day with a shared commitment to caring for others. To have seven ASC communities named among America’s Best Nursing Homes reflects that commitment and the trust families place in us to care for the people they love. We are proud of this achievement, but even more proud of the people whose compassion, skill and dedication make it possible.”

At ASC, quality care is rooted in relationships. Every day, team members across the organization work to create communities where residents feel respected, supported and at home. From clinical care and therapy to dining, activities, housekeeping, maintenance and administration, each member of the team plays an important role in creating a positive experience for residents and their families.

The *America’s Best Nursing Homes 2027* recognition adds to a growing list of accomplishments for ASC communities and reflects the organization's ongoing commitment to excellence in serving Indiana seniors.
