U.S. News & World Report Recognizes American Senior Communities in 2027 Best Nursing Homes National Rankings

INDIANA – U.S. News recently conducted their annual assessment of nursing homes across the United States and recognized four American Senior Communities (ASC) locations in their rankings. Since 2009, US News' annual rankings are based on a comprehensive evaluation framework assessing 17 distinct quality measures across Short-Term Rehabilitation and Long-Term Care categories.

In the USA, approximately 1.2 million individuals (eight percent aged 85+) will reside in a nursing home. Nursing homes, also known as skilled nursing facilities, provide 24-hour care for people who need skilled nursing care and assistance with activities of daily living.

Nursing home stays can range from days to years. To address both possibilities, two areas were rated: short-term rehabilitation and long-term care. To be recognized, a home must be "high performing" in one or both areas.

The evaluation was based on four pillars: performance data, peer recommendations, accreditations, and resident satisfaction. Standards evaluated include nurse staffing, patient outcomes, measures taken to provide a safe environment, and high-quality healthcare. (The ratings methodology report can be found here.)

For the 2027 rankings, 14,600 skilled nursing facilities across the USA were evaluated, with only 18% earning recognition in one or both areas.

The following American Senior Communities (ASC) locations achieved rankings for 2027:

High Performing in Short-Term Rehabilitation

- Creekside Village – Mishawaka, IN

- Coventry Meadows – Fort Wayne, IN
- Danville Regional Rehabilitation – Danville, IN

High Performing in Long-Term Care

- Eastgate Manor – Washington, IN

Steve Van Camp, CEO of American Senior Communities, shared his pride in this year's recognition, saying, “Being recognized among the nation's Best Nursing Homes by U.S. News & World Report is an extraordinary accomplishment and a reflection of the commitment our teams demonstrate every day. With only 18% of nursing homes nationwide earning this distinction, this recognition speaks volumes about the dedication, compassion and excellence our team members bring to their work. We are incredibly proud of the individuals who make a difference in the lives of our residents each day, and it is especially rewarding to see their hard work and commitment to exceptional care recognized on a national level.”
